Monday at 10 am does not work for me. I will be testifying at the Texas House Health Committee in Austin at that time. I could ask Ryan Burroughs, the Executive Director of the AKA if his schedule permits participation in a call at 10 am ET on Monday. If we could find a time to reschedule the call that would be great because I have a significant interest in the issue of poorly manufactured products — even if we could push the call to Noon ET I could join then.

In any event, we are looking forward to this discussion.

Best regards,
Mac

Good evening Mikel,

Thank you as well for your time and support towards advancing our collective efforts advocating for safe, regulated kratom. I have attached a presentation that we recently shared with our Kratom Industry Council, as an introduction to the latest version of our GMP 3.0 program. This is technically in a draft form, the final version will be posted within the next week on our webpage americankratom.org. I also invite you to visit kratomanswers.org for the latest scientific and legislative updates.

I look forward to continuing our conversation. You have been added to our contact list for future KIC updates and monthly webinars. Please let me know if I can provide any additional information before we speak again.

Ryan

American Kratom Association Good Manufacturing Practices Standards Program “3.0”

UPDATE & DISCUSSION

Robert Durkin
Of Counsel
Arnall Golden Gregory LLP

AKA GMP SP 3.0

- Intended to provide consumers with information to help them make an informed decisions regarding product selection.
 - Qualified participants are listed on AKA's website
 - Qualified participants can place the AKA seal on their product*

AMERICAN KRATOM ASSOCIATION

AKA GMP SP 3.0

- Administered by AKA.
- Intended to help promote:
 - Product safety;
 - Product identity; and
 - Product wholesomeness/quality
- Evaluates participant's practices and procedures for compliance with the standard established by AKA.

AKA GMP SP 3.0

Standards – “Manufacturing”

Scope of “manufacturing” related standards is based largely on, 21 C.F.R. Part 111 – “Current Good Manufacturing Practice in Manufacturing, Packaging, Labeling, or Holding Operations for Dietary Supplements.”

- Specific to dietary supplements.
- Comprised of 16 subparts.
- Covers everything from personnel, physical plant and grounds, to responsibilities of QU, to returned dietary supplements and products complaints.
- Fragmented process of bringing DS to market, participants only responsible for aspects of their own operation(s). Sort of.

AKA GMP SP 3.0

Standards - Labeling

The label of all kratom-containing products must:

- On the Primary Display Panel (panel most likely to be viewed by a consumer at the time of display for retail purposes), include;
 - A statement of identity that provides consumers with the name or a description of the product,
 - the net quantity of contents must be declared in numerical count (*e.g.*, 30 capsules), or in volume or weight in both metric and U.S. Customary System terms).

AKA GMP SP 3.0

Standards – Product Label

The label of all kratom-containing products must:

- On the Information Panel (the panel to the immediate right of the Primary Display Panel), include:
 - nutrition labeling in the form of a properly formatted Nutrition Facts label (if a food) or Supplement Facts label (if a dietary supplement);
 - including an established serving size and the number of servings per container or package
 - the amount of mitragynine and 7-hydroxy-mitragynine;
 - a declaration of any Major Food Allergens; and
 - name, and place of business of a manufacturer, packer, or distributor of the product.

AKA GMP SP 3.0

Standards – Product Label

- On any panel of the product, include:
 - directions or conditions for use that include the maximum number of servings recommended daily;
 - any appropriate warnings required for the safe use of the product;
 - full domestic street address or phone number for receiving adverse event reports;
 - a batch or lot number and a “use by date”
 - “Not for sale to individuals under 18/21 depending on jurisdiction.”
 - “Not for use by anyone pregnant or trying to become pregnant.”

AKA GMP SP 3.0

Standards – Label / Labeling

- The label / labeling and advertising of products must be fully compliant with FDA/FTC standards for structure/function claims.
- The labels /labeling, and advertising of products must not should not bear any disease or unauthorized health claims
- The label / labeling and advertising of products shall not infer in any way the product will produce a “high” to a consumer.
- The label / labeling and advertising products shall not reference any research or clinical data.

AKA GMP SP 3.0

Working Vision: a collaborative process intended to support and facilitate participants achieving certification and better complying with the Program's established standards.

- Phased approach.
- Constructive feedback when possible.
- Collaboration among qualifying (and willing) participants.

AKA GMP SP 3.0

Working Vision: a collaborative process intended to support and facilitate participants achieving certification and better complying with the Program's established standards.

- Access to resources:
 - Model SOPs;
 - Webinars and training opportunities;
 - Availability of AKA preferred auditor/consultant of individual assistance;
 - Non-seal program?

AKA GMP SP 3.0

Working proposed process:

- Application, submit registration fee;
- Orientation call, pre-audit preparation by participant;
- Auditor initial questionnaire and request for documents;
- Auditor review of responsive material, provides any feedback and if necessary suggests corrective action;
- On site audit by 3rd party auditor;
- Auditor review of observations, gap analysis, feedback, corrective actions, “score”;
- Up to three (3) site audits;
- Review of audit results by AKA;
- Certification;
- Annual requirements, periodic re-audits by 3rd party auditor, annual fee.

Reminder: AKA to Present
Kratom: The Science Speaks
at UN Commission on Narcotic Drugs

Dear Christopher,

The AKA has assembled a team of scientific experts to present on the science of kratom during the 66th Session of the UN Commission on Narcotic Drugs Conference held in Vienna, Austria. This is an incredibly exciting and powerful opportunity to help shine light on kratom science, and dispel misinformation internationally.

The AKA's presentation will take place Thursday March 16th at 2:10 pm in Vienna, which will be 9:10 am ET.
